

Terne for historical restoration

Help when you need it

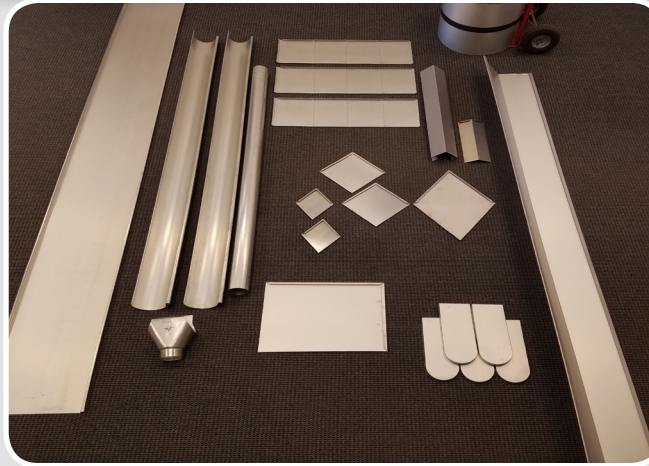

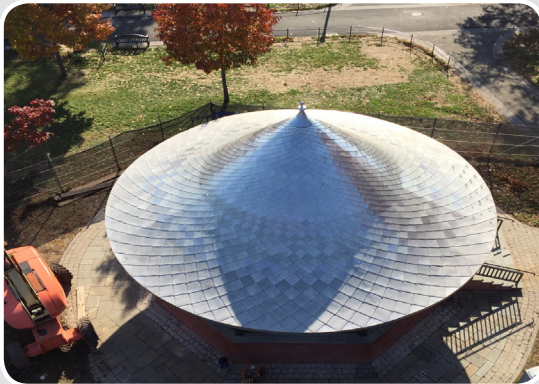

Originally hailing from Germany, we are board certified in restoration and reconstruction and have worked on architectural works of art over 800 years old. We know how to help you. We provide material installation support and training as needed.

Terne is available!

Yes! You CAN specify terne on all your historic buildings again! We are a reliable source for this very historic material crucial to maintaining the authentic intent of the communities you serve. Ask us how we can help you make your next project, beautiful, permanent and historically accurate.

Terne

- Help from the top experts in the world
 - Sheet and coil
 - Full gutter systems
 - Roof and wall systems
- Custom systems and restoration
 - All accessories

Terne is paintable, (paint not necessary, just as desired) patinates (unpainted) on its own over time and is compatible with old systems. We supply historically accurate roof and wall components.

Terne is available in sheet or coil and a spectrum of metal roof and cladding systems including custom and historic system replication. Also take advantage of all coordinating products such as comprehensive gutter systems, valleys and any other possible roof or wall apparatus. Internationally recognized hands-on training for historically accurate detail work is also available. We are your one stop shop for all things terne!
